Result

	Before	After
Accessibility score	47/100	100/100 (+53)
Total issues	14	0
Issue types resolved	3	

PASSES adacheck's automated WCAG 2.1/2.2 AA audit (no critical or serious issues remain).

Per-issue outcome

Issue (rule)	Before	After	Status
color-contrast	12	0	Resolved
input-autocomplete	1	0	Resolved
link-in-text-block	1	0	Resolved

Manual review performed

Manual review + source contrast/link/autocomplete fixes.

This report documents that the site was scanned before and after remediation and the results above were achieved. It confirms conformance against adacheck's automated WCAG 2.1/2.2 Level AA checks plus the manual review noted. It is **not** a certification of ADA compliance and does not guarantee immunity from litigation. Automated testing covers a subset of WCAG; ongoing monitoring is recommended as the site changes.
